tech rack bulk

BULK PARTS BASKETS TECH-RACK BULK 410 | 300

LIGHT, SAFE and EFFICIENT

EN

Bulk parts baskets tech-rack bulk 410

»Light in weight. Strong in performance.«

The tech-rack bulk enables safe cleaning and transport of bulk parts. Its plastic construction combines low weight with a load capacity of up to 25 kg. This makes everyday handling easier while protecting loose components during cleaning under demanding thermal and chemical conditions. Therefore the tech-rack bulk 410 bulk parts basket offers clear advantages over conventional metal or stainless steel baskets.

Stackable basket inserts

Stackable inserts allow individual parts to be precisely positioned.

Smart handle system

The integrated metal handles allow bulk parts baskets to be securely closed, stacked and carried.

Stackable

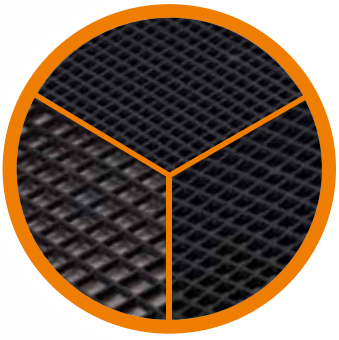

Loaded baskets can be securely stacked and transported.

Nestable

Empty bulk parts baskets can be nested for space-saving storage.

Three mesh widths

Mesh widths of 2 x 2, 4 x 4 and 8 x 8 mm accommodate different bulk part sizes.

Advantages

- Lightweight plastic construction
- Comfortable handling with integrated handles
- Stackable thanks to the handle system
- Nestable when empty for space-saving storage
- Temperature-resistant for cleaning processes up to 140°C
- Chemical-resistant
- Three mesh widths for different bulk part sizes:2 x 2, 4 x 4 and 8 x 8 mm
- Stackable compartment inserts for positioning components

System components for the bulk parts baskets 410

Bulk parts baskets and lids are available in three mesh widths: 2 x 2, 4 x 4 and 8 x 8 mm. The basket systems can be combined with various inserts to suit the parts being handled.

tech-rack bulk 410 | 8 x 8 mm

410 x 245 x 140 mm
Mesh width: 8 x 8 mm
Handle height for stacking: 125 mm

Lid 410

Mesh width: 8 x 8 mm

tech-rack bulk 410 | 4 x 4 mm

410 x 245 x 134 mm
Mesh width: 4 x 4 mm
Handle height for stacking: 125 mm

Mesh width: 4 x 4 mm

tech-rack bulk 410 | 2 x 2 mm

410 x 245 x 132 mm
Mesh width: 2 x 2 mm
Handle height for stacking: 125 mm

Mesh width: 2 x 2 mm

System components for the bulk parts baskets 410

Grid inserts, interlayer grids and compartment inserts allow individual components to be precisely positioned in the basket. The inserts can be stacked inside the tech-rack bulk to create multiple levels for bulk parts.

Grid inserts 410

365 x 196 x 30 mm
Mesh width: 10 x 10 mm
Usable internal height: 22 mm

365 x 196 x 30 mm
Mesh width: 4 x 4 mm
Usable internal height: 22 mm

Interlayer grids 410

365 x 196 mm
Mesh width: 10 x 10 mm

365 x 196 mm
Mesh width: 4 x 4 mm

Compartment inserts 410

365 x 200 x 17 mm
Mesh width: 2 x 2 mm
128 compartments: 20 x 20 x 10 mm

365 x 200 x 17 mm
Mesh width: 2 x 2 mm
64 compartments: 45 x 20 x 10 mm

365 x 200 x 17 mm
Mesh width: 2 x 2 mm
40 compartments: 68 x 20 x 10 mm

370 x 190 x 25 mm
13 compartments
Usable internal length: 178 mm
Usable diameter: 22 mm

Bulk parts baskets tech-rack bulk 300

»Compact in size. High in load capacity.«

The tech-rack bulk 300 is the smaller alternative to the tech-rack bulk 410, with mesh widths of 4 x 4 and 8 x 8 mm to accommodate different bulk part sizes. It withstands demanding thermal and chemical conditions during industrial bulk parts cleaning. Its lightweight plastic construction makes the basket easy to handle while providing a load capacity of up to 25 kg.

tech-rack bulk 300 | 8 x 8 mm

300 x 190 x 155 mm
Mesh width: 8 x 8
Handle height for stacking: 135 mm

tech-rack bulk 300 | 4 x 4 mm

300 x 190 x 155 mm
Mesh width: 4 x 4
Handle height for stacking: 135 mm

Bulk parts

Loose parts are safely cleaned and transported. The plastic protects their surfaces.

Stackable

Loaded baskets can be securely stacked and transported.

Smart carrying system

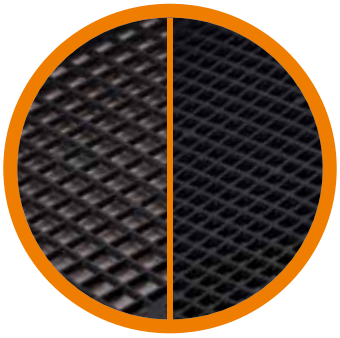

The integrated metal handles allow bulk parts baskets to be safely stacked and carried.

Nestable

Empty bulk parts baskets can be nested for space-saving storage.

Two mesh widths

Mesh widths of 4 x 4 and 8 x 8 mm accommodate different bulk part sizes.

Advantages

- Lightweight plastic construction
- Comfortable handling with integrated handles
- Stackable thanks to the handle system
- Nestable when empty for space-saving storage
- Temperature-resistant for cleaning processes up to 140°C
- Chemical-resistant
- Two mesh widths for different bulk part sizes: 4 x 4 and 8 x 8 mm

FRIES Kunststofftechnik

»Quality from Austria«

For generations, the core competence of FRIES Kunststofftechnik has been in the development and production of high-quality plastic products. Particularly in the field of industrial cleaning of components, workpiece carriers and cleaning racks made of plastic offer numerous advantages in comparison with conventional metal grid racks.

Thanks to our thorough and efficient approach, short production times and highest quality standards, we will be able to realise all your projects: from prototyping over customer-specific development down to series production - everything from a single source. Without exceptions, all our products are produced at our company headquarters in Sulz, Austria.
