Advantages of FRIES reusable tableware

Made in Europe

FRIES reusable tableware is manufactured and printed in Europe.

- » fast delivery times
- » produced sustainably

Sustainability

Interconnected processes are very ecologically efficient.

Reusable solutions avoid unnecessary waste. Sustainability is not just a factor when it comes to production. It is also something we take into account when designing products.

Food conformity

When developing our offer, we already thought five steps ahead.

Tested products that you can wholly rely on. All our products comply with the legal requirements of the Consumer Goods Ordinance.
